**‘The Value of Time’**

Time is precious and priceless for everyone of us, so we should never waste time. Time is more precious than money as money spent can be earned again but time once spent can never be earned. There is a common saying that "Time and Tide waits for none". Time flows continuously without stoppage. It never waits for anyone we should never spend our time worthlessly. We should make good use of the time so that it benefits us in the future. Time wasted now will harm us in future. So friends don't waste time. Make good use of it.
